

Name: \_\_\_\_\_

```
const heroes = [
  { name: 'Wolverine',      family: 'Marvel',    isEvil: false },
  { name: 'Deadpool',      family: 'Marvel',    isEvil: false },
  { name: 'Magneto',       family: 'Marvel',    isEvil: true  },
  { name: 'Charles Xavier', family: 'Marvel',    isEvil: false },
  { name: 'Batman',       family: 'DC Comics',  isEvil: false },
  { name: 'Harley Quinn',  family: 'DC Comics',  isEvil: true  },
  { name: 'Legolas',      family: 'Tolkien',  isEvil: false },
  { name: 'Gandalf',      family: 'Tolkien',  isEvil: false },
  { name: 'Saruman',      family: 'Tolkien',  isEvil: true  }
];
```

1. Create new array of heroes, where property isEvil is true.
2. Create object

```
{ 'Marvel': [], // all heroes from family Marvel
  'DC Comics': [], // all heroes from family DC Comics
  'Tolkien': [] // all heroes from family Tolkien
}
```

Output:

```
{ 'Marvel': ['Wolverine', 'Deadpool', 'Magneto', 'Charles Xavier'],
  'DC Comics': ['Batman', 'Harley Quinn'],
  'Tolkien': ['Legolas', 'Gandalf', 'Saruman']
}
```
